

# STANDARD BUSINESS MEMBERSHIP

The West Hartford Chamber of Commerce uses a fair-share dues model based on the number of full-time equivalent employees in your organization.

Calculating your organization size: Two part-time employees equal one full-time equivalent employee.

|                                                                                                                  |        |
|------------------------------------------------------------------------------------------------------------------|--------|
| SOLOPRENUER (1-2 FTE)                                                                                            | \$300  |
| 3-9 Full Time Equivalent                                                                                         | \$360  |
| 10-19 Full Time Equivalent                                                                                       | \$425  |
| 20-29 Full Time Equivalent                                                                                       | \$480  |
| 30-39 Full Time Equivalent                                                                                       | \$595  |
| 40-49 Full Time Equivalent                                                                                       | \$ 700 |
| 50-99 Full Time Equivalent                                                                                       | \$775  |
| 100 + Full Time Equivalent                                                                                       |        |
| base rate of \$775, plus \$5 for each full-time employee over 100. Contact the Chamber for a customized invoice. |        |
